PROFILE

Frontend Developer with 8+ years of experience building scalable, high-performance web applications and user interfaces. Experienced in Angular, React.js, Next.js, TypeScript, JavaScript, and modern frontend frameworks, with a strong background in REST APIs, state management, and responsive UI design. Recognized for delivering clean, maintainable code and contributing to startup and enterprise projects in agile environments.

WORK EXPERIENCE

BlackFin Technology

JAN 2018 - MAY 2026

Frontend Developer

Worked on multiple startup and enterprise web applications using React.js, Next.js, Angular, TypeScript, JavaScript (ES6+) and modern frontend tooling.

- Partbnb Web Application
 - Developed public-facing and admin interfaces using Angular 8+, TypeScript, Material UI, and SASS
 - Implemented server-side rendering, REST API integration, and analytics tracking
 - Collaborated in a 4-member team (2 frontend, 2 backend) using Git workflow
- LifeDirect
 - Built frontend with React.js (Hooks, Context API), TypeScript, REST APIs, and Node.js
 - Focused on dynamic dashboards, policy comparison interfaces, and responsive design
- MotorShare
 - Frontend development using React.js, Next.js, Firebase CMS, and SASS
 - Integrated client-side routing, dynamic content, and database-driven interfaces
- Little Ones Admin Panel
 - Developed admin dashboard with React.js, Next.js, Tailwind CSS, and Firebase
 - Built reusable components and state management for efficient data handling
- PennyCRM
 - Frontend development using React.js, TypeScript, Redux, Redux Toolkit, RTK Query, and Tailwind CSS
 - Designed UI components and API integrations to enhance CRM functionality
- MRE Blackfin Tools
 - Built dashboards and reporting interfaces using React.js, Next.js, TailwindCSS, Redux Toolkit, and charts
 - Optimized performance and implemented modular, maintainable code

Dev Partners Philippines
